

**VACCINE INFORMATION FACT SHEET FOR RECIPIENTS AND CAREGIVERS  
PFIZER-BIONTECH COVID-19 VACCINE TO PREVENT CORONAVIRUS DISEASE  
2019 (COVID-19) FOR USE IN INDIVIDUALS 12 YEARS OF AGE AND OLDER**

**FOR 12 YEARS OF AGE AND OLDER**

**You are being offered the Pfizer-BioNTech COVID-19 Vaccine to prevent Coronavirus Disease 2019 (COVID-19) caused by SARS-CoV-2.**

**This Vaccine Information Fact Sheet for Recipients and Caregivers comprises the Fact Sheet for the authorized Pfizer-BioNTech COVID-19 Vaccine and also includes information about the FDA-licensed vaccine.**

**The Pfizer-BioNTech COVID-19 Vaccine authorized for Emergency Use Authorization (EUA) for individuals 12 years of age and older, when prepared according to their respective instructions for use, can be used interchangeably.<sup>1</sup>**

**The Pfizer-BioNTech COVID-19 Vaccine has received EUA from FDA to provide:**

- **a 2-dose primary series to individuals 12 years of age and older;**
- **a third primary series dose to individuals 12 years of age and older with certain kinds of immunocompromise;**
- **a first booster dose to individuals 12 years of age and older who have completed a primary series with Pfizer-BioNTech COVID-19 Vaccine**
- **a first booster dose to individuals 18 years of age and older who have completed primary vaccination with another authorized or approved COVID-19 vaccine. The booster schedule is based on the labeling information of the vaccine used for the primary series;**
- **a second booster dose to individuals 50 years of age and older who have received a first booster dose of any authorized or approved COVID-19 vaccine; and**
- **a second booster dose to individuals 12 years of age and older with certain kinds of immunocompromise and who have received a first booster dose of any authorized or approved COVID-19 vaccine**

---

<sup>1</sup> When prepared according to their respective instructions for use, the FDA-approved the EUA-authorized Pfizer-BioNTech COVID-19 Vaccine for individuals 12 years of age and older can be used interchangeably without presenting any safety or effectiveness concerns.

**This Vaccine Information Fact Sheet contains information to help you understand the risks and benefits of Pfizer-BioNTech COVID-19 Vaccine, which you may receive because there is currently a pandemic of COVID-19. Talk to your vaccination provider if you have questions.**

**This Fact Sheet may have been updated. For the most recent Fact Sheet, please see [www.cvdvaccine.com](http://www.cvdvaccine.com).**

## **WHAT YOU NEED TO KNOW BEFORE YOU GET THIS VACCINE**

### **WHAT IS COVID-19?**

**COVID-19 disease is caused by a coronavirus called SARS-CoV-2. You can get COVID-19 through contact with another person who has the virus. It is predominantly a respiratory illness that can affect other organs. People with COVID-19 have had a wide range of symptoms reported, ranging from mild symptoms to severe illness leading to death. Symptoms may appear 2 to 14 days after exposure to the virus. Symptoms may include: fever or chills; cough; shortness of breath; fatigue; muscle or body aches; headache; new loss of taste or smell; sore throat; congestion or runny nose; nausea or vomiting; diarrhea.**

### **WHAT SHOULD YOU MENTION TO YOUR VACCINATION PROVIDER BEFORE YOU GET THE VACCINE?**

**Tell the vaccination provider about all of your medical conditions, including if you:**

- **have any allergies**
- **have had myocarditis (inflammation of the heart muscle) or pericarditis (inflammation of the lining outside the heart)**
- **have a fever**
- **have a bleeding disorder or are on a blood thinner**
- **are immunocompromised or are on a medicine that affects your immune system**
- **are pregnant or plan to become pregnant**
- **are breastfeeding**
- **have received another COVID-19 vaccine**
- **have ever fainted in association with an injection**

### **HOW IS THE VACCINE GIVEN?**

**The Pfizer-BioNTech COVID-19 Vaccine will be given to you as an injection into the muscle.**

**Primary Series: The vaccine is administered as a 2-dose series, 3 weeks apart. A third primary series dose may be administered at least 4 weeks after the second dose to individuals with certain kinds of immunocompromise.**

### **Booster Dose:**

- A first booster dose of the vaccine may be administered at least 6 months after completion of a primary series to individuals 16 years of age and older.
- A first booster dose of the vaccine may be administered to individuals 16 years of age and older who have completed primary vaccination with another authorized or approved COVID-19 vaccine. Please check with your healthcare provider regarding timing of the booster dose.
- A second booster dose of the vaccine may be administered to individuals 50 years of age and older at least 4 months after receipt of a first booster dose of any authorized or approved COVID-19 vaccine.
- A second booster dose of the vaccine may be administered at least 4 months after receipt of a first booster dose of any authorized or approved COVID-19 vaccine to individuals 12 years of age and older with certain kinds of immunocompromise.

The vaccine may not protect everyone.

### **WHO SHOULD NOT GET THE VACCINE?**

You should not get the vaccine if you:

- had a severe allergic reaction after a previous dose of this vaccine
- had a severe allergic reaction to any ingredient of this vaccine.

### **WHAT ARE THE INGREDIENTS IN THE VACCINE?**

The vaccine includes the following ingredients:

- mRNA, lipids ((4-hydroxybutyl)azanediyl)bis(hexane-6,1-diyl)bis(2-hexyldecanoate), 2 [(polyethylene glycol)-2000]-N,N-ditetradecylacetamide, 1,2-Distearoyl-sn-glycero-3-phosphocholine, and cholesterol).

Pfizer-BioNTech COVID-19 vaccines for individuals 12 years of age and older contain 1 of the following sets of additional ingredients; ask the vaccination provider which version is being administered:

- potassium chloride, monobasic potassium phosphate, sodium chloride, dibasic sodium phosphate dihydrate, and sucrose

**OR**

- tromethamine, tromethamine hydrochloride, and sucrose

### **HAS THE VACCINE BEEN USED BEFORE?**

Yes. In clinical trials, approximately 23,000 individuals 12 years of age and older have received at least 1 dose of the vaccine. Data from these clinical trials supported the Emergency Use Authorization of the Pfizer-BioNTech COVID-19 Vaccine. Millions of individuals have received the vaccine under EUA since December 11, 2020. The vaccine that is authorized for use in individuals 12 years of age and older includes two formulations; one that was studied in clinical trials and used under EUA, and one with the same mRNA and lipids but different inactive ingredients. The use of the different inactive ingredients helps stabilize

**the vaccine under refrigerated temperatures and the formulation can be administered without dilution.**

#### **WHAT ARE THE BENEFITS OF THE VACCINE?**

**The vaccine has been shown to prevent COVID-19.**

**The duration of protection against COVID-19 is currently unknown.**

#### **WHAT ARE THE RISKS OF THE VACCINE?**

**There is a remote chance that the vaccine could cause a severe allergic reaction. A severe allergic reaction would usually occur within a few minutes to 1 hour after getting a dose of the vaccine. For this reason, your vaccination provider may ask you to stay at the place where you received your vaccine for monitoring after vaccination. Signs of a severe allergic reaction can include:**

- **Difficulty breathing**
- **Swelling of your face and throat**
- **A fast heartbeat**
- **A bad rash all over your body**
- **Dizziness and weakness**

**Myocarditis (inflammation of the heart muscle) and pericarditis (inflammation of the lining outside the heart) have occurred in some people who have received the vaccine, more commonly in males under 40 years of age than among females and older males. In most of these people, symptoms began within a few days following receipt of the second dose of vaccine. The chance of having this occur is very low. You should seek medical attention right away if you have any of the following symptoms after receiving the vaccine:**

- **Chest pain**
- **Shortness of breath**
- **Feelings of having a fast-beating, fluttering, or pounding heart**

**Side effects that have been reported with the vaccine include:**

- **severe allergic reactions**
- **non-severe allergic reactions such as rash, itching, hives, or swelling of the face**
- **myocarditis (inflammation of the heart muscle)**
- **pericarditis (inflammation of the lining outside the heart)**
- **injection site pain**
- **tiredness**
- **headache**
- **muscle pain**

- chills
- joint pain
- fever
- injection site swelling
- injection site redness
- nausea
- feeling unwell
- swollen lymph nodes (lymphadenopathy)
- decreased appetite
- diarrhea
- vomiting
- arm pain
- fainting in association with injection of the vaccine

These may not be all the possible side effects of the vaccine. Serious and unexpected side effects may occur. The possible side effects of the vaccine are still being studied in clinical trials.

**WHAT SHOULD I DO ABOUT SIDE EFFECTS?**

If you experience a severe allergic reaction, go to the nearest hospital.

Call the vaccination provider or your healthcare provider if you have any side effects that bother you or do not go away.

In addition, you can report side effects to Pfizer Inc. directly to the below website or at the Email provided below.

**WHAT IF I DECIDE NOT TO GET THE PFIZER-BIONTECH COVID-19 VACCINE?**

Under the EUA, it is your choice to receive or not receive the vaccine. Should you decide not to receive it, it will not change your standard medical care.

**ARE OTHER CHOICES AVAILABLE FOR PREVENTING COVID-19 BESIDES PFIZER-BIONTECH COVID-19 VACCINE?**

Other vaccines to prevent COVID-19 may be available under Emergency Use Authorization.

**CAN I RECEIVE THE PFIZERBIONTECH COVID-19 VACCINE AT THE SAME TIME AS OTHER VACCINES?**

Data have not yet been submitted to FDA on administration of the Pfizer-BioNTech COVID-19 Vaccine at the same time with other vaccines. If you are

considering receiving the Pfizer-BioNTech COVID-19 Vaccine with other vaccines, discuss your options with your healthcare provider.

#### **WHAT IF I AM IMMUNOCOMPROMISED?**

If you are immunocompromised, you may receive a third primary series dose of the vaccine. The third dose may still not provide full immunity to COVID-19 in people who are immunocompromised, and you should continue to maintain physical precautions to help prevent COVID-19. In addition, after you received a first booster dose, you may receive a second booster dose of the vaccine if you are 12 years of age or older. Your close contacts should be vaccinated as appropriate.

#### **WHAT IF I AM PREGNANT OR BREASTFEEDING?**

If you are pregnant or breastfeeding, discuss your options with your healthcare provider.

#### **WILL THE VACCINE GIVE ME COVID-19?**

No. The vaccine does not contain SARS-CoV-2 and cannot give you COVID-19.

#### **KEEP YOUR VACCINATION CARD**

When you get your first dose, you will get a vaccination card to show you when to return for your next dose(s) of the vaccine. Remember to bring your card when you return.

#### **ADDITIONAL INFORMATION**

If you have questions, visit the website provided below.

To access the most recent Fact Sheets, please scan the QR code provided below.

#### **HOW CAN I LEARN MORE?**

- Ask the vaccination provider.
- Visit CDC at <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.
- Visit FDA at <https://www.fda.gov/emergency-preparedness-and-response/mcmlegal-regulatory-and-policy-framework/emergency-use-authorization>.
- Contact your local or state public health department.

## **WHERE WILL MY VACCINATION INFORMATION BE RECORDED?**

The vaccination provider may include your vaccination information in your state/local jurisdiction's Immunization Information System (IIS) or other designated system. This will ensure that you receive the same vaccine when you return for the second dose. For more information about IISs visit:

<https://www.cdc.gov/vaccines/programs/iis/about.html>.

## **WHAT IS AN EMERGENCY USE AUTHORIZATION (EUA)?**

An Emergency Use Authorization (EUA) is a mechanism to facilitate the availability and use of medical products, including vaccines, during public health emergencies, such as the current COVID-19 pandemic. An EUA is supported by a Secretary of Health and Human Services (HHS) declaration that circumstances exist to justify the emergency use of drugs and biological products during the COVID-19 pandemic.
